

42" Dirt Bucket

The Thomas 42" Dirt Bucket is designed to stand up to the continuous day in, day out abuse of severe works cycles without complaint.

Constructed from heavy 10 gauge steel plating the bucket also features a wear resistant cutting edge built from high tensile Scandia 400 steel.

This easy loading bucket is equipped with a quick mounting universal quick-tach system allowing you to be ready for any job in seconds.

Bucket

- | | |
|---------------------------|---|
| • Width (overall) | 42" (1167mm) |
| • Height (overall) | 16.3" (414 mm) |
| • Length (overall) | 23" (584 mm) |
| • Capacity | 4.7 ft³ (.13 m³) |
| • Approx. Weight | 120 lb (54kg) |

Tooth Bar

An optional tooth bar constructed of high tensile T1 steel provides you with two buckets in one. A smooth cutting edge for lighter materials and back dragging applications and a toothed edge for exceptional digging power in hard, compacted soils.
