

Dozer Blade

The Thomas Dozer Blade is the perfect attachment for all your grading, leveling and spreading chores.

The heavy duty blade features hydraulic six-way action. The dozer can be pivoted a full 30° to the left or right. For ditching and crowning applications the blade can also be tilted up to 6° on both the left and right.

The 47" (1194 mm) wide dozer blade also features heavy steel construction and fully replaceable cutting edge adds up to years of trouble free performance.

The Dozers quick-tach mounting system also ensures your ready to take on any job in seconds
