

Tree Fork

Whether around the nursery or the landscaping jobsite the Thomas Tree Fork attachment will be one of the handiest tools you can have.

The forks 3" (76 mm) wide, 43" (1092 mm) long tines handle balled trees and other plants with ease. The hinged tines can close from a wide 24" (610 mm) to a narrow 4" (102 mm) allowing you to handle a wide variety of plant sizes.

The tree forks can also be used to move bags of mulch, fertilizer, top soil as well as other materials.

The Thomas exclusive no spill boom self leveling system also means you can handle those plants with confidence.

The tree forks quick-tach mounting system ensures your ready to take on a whole new job in seconds.
