

Auger

The Thomas Auger is available in two models. A high speed lower torque model for lighter soils and a low speed high torque (2300 ft. lb.) model for those tougher digging conditions.

No matter which model you choose, the auger motors double u-joint mounting means you'll always be digging holes with plumb line accuracy.

A wide choice, from 6" (152 mm) through 30" (762 mm) auger bits as well as extensions and specialized tapered tree augers mean you'll be equipped for any job.

- **Model X900 - 63 rpm - 1200 ft. lb. torque***
- **Model X1500 - 32 rpm—2300 ft. lb. Torque***
- **Output Shaft Diameter - 2 9/16" (65 mm)**

*** Based on 8 GPM @ 3000 psi**
